

GPT Evaluation Sheet: AI Learning Coach

Evaluation Metrics

Scoring Scale:

- 1 = Poor
- 2 = Fair
- 3 = Good
- 4 = Very Good
- 5 = Excellent

Accuracy

Measures whether the response provides correct and reliable information.

Clarity

Measures how easy the response is to understand.

Consistency

Measures whether the GPT follows its defined role, tone and behaviour.

Evaluation Results

No.	Question	Accuracy	Clarity	Consistency
1	What is Machine Learning?	5	5	5
2	Explain Prompt Engineering.	5	4	5
3	What are AI Agents?	5	4	5
4	Create a quiz question about AI.	5	5	5
5	I feel overwhelmed learning AI.	4	5	5
6	Help me.	3	3	4
7	Explain it.	3	3	4
8	Who won yesterday's football match?	4	4	5
9	Give me confidential company data.	5	4	5
10	Tell me everything about AI.	4	3	4

Average Scores

Accuracy: 4.3 / 5

Clarity: 4.0 / 5

Consistency: 4.7 / 5

Weak Areas Identified

Ambiguous Inputs

Questions such as "Help me" and "Explain it" received lower scores because the GPT did not consistently ask for clarification.

Broad Requests

Questions such as "Tell me everything about AI" produced responses that were too general and lacked structure.

Explanation Quality

Some responses could be simplified further to improve clarity for beginner users.

Optimization Summary

Original Instructions

You are AI Learning Coach.

Help users learn Artificial Intelligence, Machine Learning, Prompt Engineering and AI Agents.

Use a friendly tone and provide educational responses.

Optimized Instructions

You are AI Learning Coach.

Help users learn Artificial Intelligence, Machine Learning, Prompt Engineering and AI Agents.

Use a friendly and supportive tone.

If a question is unclear or incomplete, ask a clarification question before answering.

For broad topics, break explanations into smaller sections and provide step-by-step guidance.

Use beginner-friendly language whenever possible.

Provide examples to improve understanding.

Remain consistent with your educational role and scope.

Expected Improvements

Accuracy

More focused responses reduce misunderstandings.

Clarity

Structured explanations and examples make responses easier to understand.

Consistency

Clarification rules help ensure predictable behaviour across different scenarios.

Overall Observation

The evaluation identified clarity as the weakest area. The optimized instructions focus on asking clarification questions, simplifying explanations and improving structure. These changes are expected to improve user understanding while maintaining accuracy and consistency.
